Emperor William's Health.
BERLIN, Dec. 11.—The health of the Emperor William is again reported to be precarious. It is said that he is seriously ill and confined to his bed and it is feared by his physicians that his waning vitality will not be able to bring him through his present attack.

A SEWER DEATHTRAP.

Four Men Killed and Three Wounded—
Talis of Death.

AKRON, O., Dec. 11. A sewer in course of construction here caved in, burying seven laborers, four of whom were crushed to death and injuring the others so badly that they will probably die. The cave occurred without a moment's warning. The ground which had been frozen for two or three days was softened by the thaw.

Three of the men were standing on the scaffold and the four others at the bottom of the sewer which had been excavated to a depth of twenty feet. Suddenly the timbers began cracking, and the water-soaked earth for twenty feet on each side of the sewer rolled down upon the unfortunate workmen. William McGill, one of the men on the scaffold, escaped, but all the others were caught by the mass of timber and earth.

The groups of the men who were but partially buried were heartrending. They called for assistance, but for some time no one would venture near the hole. Finally a large force of men was set to work with shovels, and in half an hour two of the victims were taken out. They were yet alive, but in terrible agony. Another hour of digging brought them to a third man, whose groans had ended the rescue party.

Near him was found the body of a fourth man dead. It being apparent then that the others were dead the search was abandoned for the night. The list of the killed and wounded is as follows:

Max Rosensfig, aged 27, single, dead.
Henry Frigert dead.
Unknown Italian dead.
Unknown Italian dead.

John Wyckoff, aged 38, married, chest and abdomen crushed and leg broken, will die.
Henry Walser, aged 35, married, legs crushed and scalp wound, may recover.
Augustus Krebst, aged 28, believed to be fatally injured.

"A RELIGIOUS CENSUS."

An Address Before the Inter-Confessional

CINCINNATI, Dec. 11.—The Inter-Denominational congress met with a smaller attendance than usual. Rev. Dr. French was chosen moderator. After the regular devotional exercises, and a few brief remarks on various topics, a paper was read by Rev. Dr. Kummel, of Pittsburg, on "A Religious Congress, 25 Years Hence." It was a very able and interesting paper, and was well received.

Christianity is a failure. Many predicted and propounded its end before this century. It is said there is more of wickedness and crime in the world to-day than ever before. That may be true, but there is more of everything—more of virtue and piety also".

His paper was bristling with facts and figures, showing that statistics completely refute the alleged saying that Christianity

is on the decline. We have more than 6,000 missionaries. More than \$10,000,000 are gladly given annually in Europe and America to the cause of Christ. In 1880 out of a population of 59,000,000 of people 10,000,000 were communicants, that is, one out of every five in the country. He closed with an animated and soul-stirring appeal to the audience, which was heartily cheered.

He was followed by Rev. Frank Russell, of Mansfield, who gave a recital of an experiment in religious work at Mansfield, which was carried on by all the pastors there. This work showed:

First—That lodges of various kinds could not and should not take the place of the church in doing Christian work.

Second—That no church should work for

itself, or by itself, and by working as much as possible with and through others, it thereby does most for itself.

THE END IN VIEW.

One of the Cutlers Returns to Work in Cincinnati.

CINCINNATI, Dec. 11.—It seems that the shoe cutlers are not heeding the mandates of

shoe cutters are now meeting the demands of the Knights of Labor. It is understood that the latter organization has ordered the strikers to return to work, and that the executive committee of the Knights of Labor will investigate matters.

The order was to be carried out soon. The shoe cutters met and resolved not to go back. One man, however, returned to Scribby & Company's. He states that he prefers

adding by the decision of the Knights of Labor than the Lodge. Although the cutters have not as yet returned, still it is proper to believe that they will go back to work very soon, as without the aid of the Knights of Labor they are helpless.

Harlem Estate Case.
PITTSBURG, Dec. 11.—An important and

The last meeting of the Harlem estate syndicate previous to going into court to try for the possession of the vast New York estates claimed will be held in this city on Tuesday next. About five hundred heirs and stockholders will be present. A general report of the work accomplished by the managing committee will be read, and some surprising statements are promised. It is stated that about one hundred thousand dollars have al-

ready been expended in collecting from all parts of the world testimony in proof of lineal and collateral heirship. The librarian of a public institution in Tioga county is said to be in possession of the original deeds that granted the Harlem commons to their first owners. Among other prominent attorneys expected to be present is W. H. Shupe, of New York.

The porte threatens an invasion of Bulgaria if Alexander opposes the Turkish commission to Roumelia. One hundred thousand Servians are massed at Nissa, and Bulgarian preparation for further fighting goes on actively. There are only seven constituencies yet to vote in Great Britain, and of these the Liberals expect to carry three, which will

leave them in a minority of two against the Tories and Irish.

incidents, and evoking constant mirth and

laughter. A large audience was in at-

tendance, and the evening was enjoyed by

all. The scenery was presented in low-

relief, and the acting was very good. In

fact, it has since been improved. The

scenery seems that ever have been im-

proved, and new and original acts make up

ANOTHER MINERS' RIOT.

THIS TIME IT IS THE SECOND POOL-
NEAR MCKESPORT.

Two Hundred Strikers Visit the Fine Run
Mine and Mob the "Blacklegs"—Fatal
Affray—Engine Ditched and De-
molished—Arrests to be Made.

FRANKFORD, Dec. 11.—It was reported in this city that committees of striking miners had been for several days scouting the various pools along the Monongahela river, mistaking volunteers to visit the Fine Run mine operated by James Lynn & Sons in the Second pool near McKesport. The sixty or seventy miners employed there have been working for two weeks at the 3½ cent rate. They had refused the request of the strikers to join them, until the strike was settled.

Shortly before 3 o'clock in the morning, about two hundred strikers congregated a short distance from the mine and awaited the appearance of the "blacklegs." The first to be overhauled was Nate Campbell, driver, who refused to go home. He was pelted upon and carried home, receiving internal injuries that may prove fatal.

A gang of twenty next made the appearance, but was confronted by the excited miners who quickly left for home. Later another squad, more determined than the previous, refused to retreat. One of them attempted to force a way through the crowd, and stopped only when struck a stunning blow with a club. He was carried away by his comrades, who also notified Mine Superintendent James O'Neil, who with a number of men boarded the mine engine and proceeded to the scene.

The strikers seeing the approaching engine, threw the switches blocking the track. The engine was derailed and badly wrecked, its passengers however, escaping injury by jumping. Superintendent O'Neil, much surprised, wisely offered no resistance. The striking miners being in complete control then celebrated their victory by a deafening yell and left the mine. Subsequently fifty of the miners entered the pit and are now at work.

Twenty of the rioters were recognized and will be arrested. Sheriff Gray, of this city, with a number of deputies, is at the scene of the riot. Operators are fearful of a repetition of the acts of violence, and that their property will be burned. There is intense excitement in the vicinity.

The Chicago strike.

CHICAGO, Dec. 11.—The strike of the switchmen has brought business in the freight yards of the Chicago, Burlington & Quincy railroad to a standstill, but so far there is no disorder, and if the strikers are to be believed there will be no violence. Forty of the day hands have left their work, and now thirty-two of the night men have joined their brethren, whom many entirely suspended switching operations in the yards. At 9 o'clock there were 800 loaded cars on the tracks not able to be moved, and more were expected to arrive. The strikers refused to let a wheel be turned and to enforce obedience to their wishes, unimpeded a great many cars. At 10 o'clock the company gave up all attempts to move trains, and called on the West Twelfth street police to protect their property. Twenty patrol men were stationed about Canal and Sixteenth streets, and will be kept there until a settlement is made. The cause of the strike was for being kept on duty the night shift, while only receiving pay for actual work at switching.

KILLED HIS OLD FRIEND.

Marques Courrier Murdered by James Gray—The Cause a Mystery.

FLORENCE, Tex., Dec. 11.—Intelligence has been received from Lodi of the murder of Marques Courrier, a leading citizen of the village, by James Gray, his intimate friend. The tragedy is surrounded with a good deal of mystery. The killing took place in front of Gray's store at night. They were alone, as it was Courrier's turn to be on duty, and he saw Gray the last thing before going home each night. Gray is a cripple, and when arrested he was standing in the middle of his store with his pistol in his hand, as though meditating self destruction. Just outside the doorway lay his former friend, Courrier, with a bullet in the heart, while around the corpse was the usual belt, holding a revolver, which had been drawn.

It is thought they quarreled over some trivial matter. Gray says the deed was done in self defense. A peculiar remark about the homicide is the fact that Courrier, for fifteen years prior to the death of James Gray, father of the slayer, was his inseparable companion, and on the death of the father a number of years ago, the crippled son took his place in the warm affections of Courrier, who was universally esteemed.

DUDE STUDENTS.

Refused to Drill on "Bitter Cold" Days.

MADISON, Wis., Dec. 11.—Twenty sophomores and freshmen of the State university have been indignantly suspended from that institution. About forty members of the two classes signed an agreement to the effect that they would not attend military drill in the afternoon from 8:30 to 4:30 o'clock on days that were "bitter cold."

About twenty have agreed, but the remainder weakened when the hour for "cutting" arrived and put in an appearance at the drill exercise. Those failing to appear were suspended.

The trouble, the boys claim has arisen from Lieut. Luecke's strict discipline, requiring that each student appears at drill with a black tie, cleanly shaven face and polished shoes.

An Unpleasant Charge.

CHICAGO, Dec. 11.—Capt. David O'Connell of the 10th and 11th companies No. 18, under the unpleasant charge of a coroner's jury that the death of Edward Gilmore, the fireman killed at the Cribben, Sexton & Co. fire, was due to the captain's careless execution of his orders. At the inquest, Assistant Fire Marshal Murphy and Capt. O'Connell both said that they had received orders from Chief Streets to get the fire back from the walls which were in danger of falling, and Capt. O'Connell swore that he gave the order to the men. Chief Streets, of engine company No. 11, said that Capt. O'Connell did not communicate any such order to him. Lieut. Elmer, of 11, testified that he heard no such order, and Lieut. Haber, of 33, who was at a pipe, was sure of the same thing.

THOMSON'S PATENT

GLOVE FITTING

ARE STILL TRIUMPHANT!

For fifteen years they have steadily gained in favor, and with sales constantly increasing they have become the most popular Corsets throughout the United States.

The G. quality is warranted to wear twice as long as ordinary Corsets. We have lately introduced the G and H grades with extra long waist, and we can furnish them when preferred.

Highest awards from all the World's Great Fairs. The last medal received is for First Degree of Merit from the late exposition held at New Orleans.

While scores of patents have been found worthless, the principles of the Glove-Fitting have proved invaluable.

Retailers are authorized to refund money, if on examination, these Corsets do not prove as represented. For sale everywhere.
